

ES2258/EL2258

Certified crimping tool for Cu-terminals 4 - 25 mm²

- certified tool for norm accordance connection
- 30% lower handforce than earlier T2258 version makes the crimping easier
- ergonomic handles makes the installation easier
- scissor movement for optimal access in narrow spaces
- ratchet release which is not released until the crimping is completed
- hexagonal crimping with clearly marked crimping dies
- possibility to adjustment at calibration after long time use

ES2258

Certified crimping tool for crimping of Cu-terminals, CUT 6-16 mm² and KR/KS 4-10 mm². **ES2258 replaces T2258.**

EL2258

Certified crimping tool for crimping of Cu-terminals, KRF/KSF $16\text{-}25~\text{mm}^2$.

This is a certificate which is delivered with every unique tool. A certified tool means 100% quality control, namely that all tools are checked for correct preload force and die nest height. This is the foundation to achieve a norm accordance connection.
